SUMMARY OF PROJECT

Population migration, whether voluntary or forced, is a key phenomenon of all human history. In the near future, the world will continue to be confronted with the positive and negative factors emerging from international migration. There is no any European country that would not be affected by migratory movements. While immigration is part of the national identity and history of Australia, Canada, USA and European countries understand themselves and above all as emigration countries. In Europe, immigrants and refugees make up 20 million of the European population out of a total of 380 million. Migration is currently changing the face of the European population.

Within our project, **youth people from 5 European countries - the Czech Republic, Bulgaria, Italy, Hungary and Slovakia - will meet with Youth Workers from Jordan, Egypt, Algeria and Syria.**

VENUE:

The second part of our project - Youth Exchange - will take place in the small village **Maly Ratmírov** 10 kilometres from **Jindřichův Hradec** (Czech Republic) **from 22nd to 28th of June 2018**. The arrival will be on the 21st and the departure on the 29th.

Jindřichův Hradec, where was our first part of the project, is a small town in the South Bohemian Region of the Czech Republic. It has approximately 22,700 inhabitants. The city castle and palace is the third largest in the country after those in Prague and Český Krumlov. More than 10,000 works of art and a similar number of books may be found there. Jindřichův Hradec's neighbourhood includes sites such as Červená Lhota Castle, the historical town of Třeboň and Stráž nad Nežárkou. The UNESCO World Heritage town of Telč lies 40 kilometers (25 miles) to the east.
